worked on various projects within
and have gained a lot of experience
being an electrician. As of Nov 2025
I've been hired as a part-time worker,
in which I'm used as a junior
software developer and electrician

HOBBIES

- Guitar, Piano And drums
- Basketball
- Listening to music

ABOUT ME

I'm Vlad, a 17-year-old (29-10-2008) MBO
student. I'm originally from Romania, but
English is my mother tongue. I'm proficient
in both Dutch and English. I'm very curious
for new information. I learn things fast and
retain information well.

SKILLS

Programming skills:

I contain basic knowledge in:
-HTML, CSS, Java, Python, C#

Development skills:

I have a lot of experience in the testing of video
games (QA and Playtesting). From Dec 2024 I've
tested various games for a variety of indie
studio's within the game ROBLOX, where user
create their own games within. I've always
wanted to expand my capabilities outside of
ROBLOX though.

Untitled Parkour Game – A Silly Studio

ADRENALINE – Sundown Softworks

Social skills:

I'm fairly relaxed on my own and around people,
but I'm also quite introverted. I'm able to focus
ell on tasks that are given to me and when I
start I usually can't stop until it's done.
